

2. LUBRICATION

MANUAL

GREASE OR OIL GUN

Easy one-handed lubrication.

*Optional

APPLICATIONS

The grease gun is the ideal tool for easy, clean and quick greasing in industrial and agricultural environments.

BENEFITS

- **Practical**

The pump can be operated with one hand.
Easy grip thanks to the knurled casing.
Can be used either with cartridges or filled directly with grease.

- **Robust**

Designed for industrial applications with a maximum pressure of 345 bars.
The high quality impact-proof steel guarantees long-life.

- **Clean and precise application**

The special grease nozzle developed by NTN-SNR can be screwed to the grease gun.
Use this nozzle to inject grease cleanly and precisely into the bearing.
Slow and controlled grease flow: 0.5 cm³ /travel
